Enough?: How Much Money Do You Need For The Rest Of Your Life?

Synopsis

How much money do you really need for the rest of your life? Research shows that the majority of people have no idea where they are heading financially. They may have assets, investments, and/or high levels of income, but most people have no idea what it all means, or what sort of financial future awaits them. What we all need to know is: "How much is ENOUGH? How much money do I need for the rest of my life?" This book helps you discover how much is enough - for YOU. Having an insight into how much we actually need can be enlightening. It can put you in control. Knowing how much is ENOUGH will give you the freedom to live your life smarter. After all, life is not a rehearsal, it needs to be lived to the max. Paul introduces you to the concept of Lifestyle Financial Planning - a way to help you find this freedom. Using simple step by step instructions this book will guide you through the process of developing your own financial plan. Written in an inspiring, simple, non jargon style, you'll find this book easy to read from cover to cover, and by the end of it you might know more about good financial planning than many financial advisers.

Customer Reviews

A quick and easy read that provides a unique and refreshing perspective to the retirement dilemma. How can you know how much is enough to retire if you don't know how much retirement is going to cost? The author hits the nail on the head when he talks about while we may not know what we want in retirement we know what we don't want...to live a reduced lifestyle. Why doesn't traditional retirement planning give us more certainty so we can live our lives the way we want to live them

without worrying about running out of money? Even though the author is from the UK and his terminology is a little different than what we have here in the U.S. the premises he delivers can be tweaked to serve us well here. This is a must read for anyone wanting a successful retirement and full life!
