Customer Reviews

I was greatly disappointed with this book. I was looking for something that would explain the texture packs and provide a decent description and maybe even a location link. Some information about the texture pack would be useful, like date of publication, what editions of minecraft does it work on etc...This may be common knowledge to some, but if it's a handbook, it should let a beginner as well as a seasoned player know what is going on.This reviews 16 texture packs badly, I can find better information free through Google and not waste money on an uninformative book.

This is a good texture pack book selection if you want to have a basic texture pack... So pretty good

overall!
