Customer Reviews

This book will give my sons lots of detective fun. We home school and we are studying detectives and spying. This little book fits right in with our study and it's totally hands-on, so it's great for us!

The book is full of good activities for young children. Was as advertised and in good condition and good price.

This is a great hands on book that really captures the reader's attention. Wish I could buy a class

set.

A gift for a 9 year old nephew. Hope he finds it to be as intriguing as it seemed to me. Had read a review by a children's librarian in our local newspaper

Fun, inventive, light-hearted, & full of activities that are fun for adults too. I actually learned a lot from reading it aloud to a 5-year-old!
