## Customer Reviews

Not sure if I should give this 5 stars or 1 star. It was extremely helpful if you are completely clueless about paralegals or the law. It explains everything so well even a 5th grader would get it. So that's why I gave it a 5. But if you already have knowledge, even basic knowledge, this book will make you want I dig your eyes out with a spoon. It's that basic. So whichever way you want!

The book came in on the date indicated. It was wrinkled and bent, but what can you expect from a

rental. As far as being legible I was able to read everything in the book. The chapters I have read are clean (no markings). This is the first time I rent a book not being a library book, it was a pretty neat experience so far. I still have not finished using it, therefore, do not have a comment regarding the return process. Hopefully its a no brainer and it all goes smooth.

used it for paralegal course, very informative book and must if you are pursuing career in paralegal. on the expensive side though

I have the kindle edition. It does not go past chapter 12. I wish I had realized this was an issue before this. I don't know what I am going to do for the remainder of the course. :-(

This edition had missing chapters. My professor allowed me to log into the instructor's site of the publisher and get what I needed.

A heavy read but it is a text book so what can you expect. Still awesome as a comprehensive text with anecdotes and advice.

Excellent book. Lots of extra stuff in this book. It is helping me and my education and career as a Paralegal.

This is my first time renting a book and to be honest it's better than I expected. I'm really happy with it.
