# The Family Book

## Synopsis

The Family Book celebrates the love we feel for our families and all the different varieties they come in. Whether you have two moms or two dads, a big family or a small family, a clean family or a messy one, Todd Parr assures readers that no matter what kind of family you have, every family is special in its own unique way. Parr's message about the importance of embracing our differences is delivered in a playful way. With his trademark bold, bright colors and silly scenes, this book will encourage children to ask questions about their own families. Perfect for young children just beginning to read, The Family Book is designed to encourage early literacy, enhance emotional development, celebrate multiculturalism, promote character growth, and strengthen family relationships

## Book Information

Age Range: 2 - 5 years

Grade Level: Preschool - 1

## Customer Reviews

This book was a gift to my daughter and I from my stepsister, as much as a testament to her acceptance of me as her sister, as her acceptance of my daughter, who was adopted, as her niece. She couldn't have given us a better gift. But I have to be completely honest and say that, had I come across this book in the store, I would not have bought it. In fact the first time I read it to my daughter, I wanted to skim past the "some families have two moms or two dads" page. I know my saying that might be hurtful for some, and I am truly, truly sorry. Well, I didn't skim past that page. I read it to my

daughter. Again, and again, and again because guess what: this is her favorite book. And though she's 18 mos old, she understands what is going on. She loves to wipe her hand across the "Some families like to be clean" page and she turns to hug me on the "All families like to hug" page. She places her finger to her mouth to shush when I say, "Some families like to be quiet." I didn't teach her to do these things as we read along; this book just really engages her. Some day she'll look at me quizzically and ask how it is that some people have two moms or two dads, and I'm going to tell her why: they just do. Like the other reviewer, I will admit that I had no intention of introducing my daughter to homosexuality at such a young age. Because, I was thinking about the sexuality part, not the love part. And the more I read this book to to her over and over and over, I am learning that when she has friends who have same gender parents, that is what I want her to focus on, the love part, because that's what she thinks about when she sees her own mommy and daddy, nothing else. We became a family without any of that.
